Why International Investing Matters: Diversification, Valuation, and Global Opportunity

In this episode of Choate Wealth's podcast series, Erin Kerr and Jake Kidder discuss the role of international equities in a diversified portfolio. They explore the differences between developed, emerging, and frontier markets, review how global market leadership has shifted over time, and examine what current valuations may mean for investors. The conversation also highlights the diversification benefits of international exposure and practical ways to access global markets as part of a disciplined, long-term investment strategy.
